

Kids in Kars Survey

Instructions: Please fill in the circle to indicate the extent to which you agree or disagree with each statement. Please answer as best as you can even if you are not sure.

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
1. The seat belt provides the same basic protection as a booster seat.	<input type="radio"/>				
2. A seat belt's primary purpose is to prevent being thrown from the vehicle.	<input type="radio"/>				
3. The child restraint law in Virginia adequately protects 6-8 year old children.	<input type="radio"/>				
4. It is important to buckle children in a safety restraint on every ride.	<input type="radio"/>				
5. Safety belts are not enough to protect 5-8 year old children in crashes.	<input type="radio"/>				
6. Seat belts are made to fit adults.	<input type="radio"/>				
7. Putting the shoulder strap of a safety belt behind a child's back or under a child's arm helps achieve a better fit.	<input type="radio"/>				
8. Booster seats are more effective than seat belts in reducing unnecessary injury to 5-8 year-old children in car crashes.	<input type="radio"/>				
9. Booster seats work better than seat belts to prevent unnecessary injury to 5-8 year-old children in car crashes.	<input type="radio"/>				
10. If I secure a 5-8 year old child in a booster seat instead of a seat belt, that child is less likely to get unnecessarily injured in a car crash.	<input type="radio"/>				
11. I am able to buckle a 5-8 year-old child in a booster seat to prevent him/her from getting injured in a car crash.	<input type="radio"/>				
12. It is convenient for me to buckle a 5-8 year-old child in a booster seat (on every ride) to prevent injury in a car crash.	<input type="radio"/>				
13. I can easily buckle a 5-8 year-old child in a booster seat to prevent injury in a car crash.	<input type="radio"/>				
14. I believe improper seat belt use is dangerous for 5-8 year-olds in a car crash.	<input type="radio"/>				
15. I believe that transporting a 5-8 year old child without a booster seat has serious negative consequences.	<input type="radio"/>				
16. I believe that it is extremely harmful for 5-8 year-olds to wear only a seat belt in a car crash.	<input type="radio"/>				
17. If improperly restrained, it is likely that my child will get hurt in a car crash.	<input type="radio"/>

18. If not appropriately restrained, my child is at risk for getting unnecessarily injured in a car crash.	<input type="radio"/>				
19. It is possible that my child will get hurt from improper restraint use in a car crash.	<input type="radio"/>				
20. It is more important for a child to use a seatbelt in the front seat of a car than in the back seat.	<input type="radio"/>				
21. It is safe for a 7-12 year to ride in the front seat.	<input type="radio"/>				
22. Because of frontal airbags, children aged 9 are better protected in the front seat than the back seat of passenger vehicles.	<input type="radio"/>				
23. I find it unnecessary to make a 10-year-old child ride in the back seat when nobody is in the front passenger seat.	<input type="radio"/>				
24. I know what a booster seat looks like.	<input type="radio"/>				
25. A child should remain in a booster seat until he/she weighs about 80 pounds.	<input type="radio"/>				
26. The purpose of a booster seat is to position a seatbelt properly on a child.	<input type="radio"/>				
27. Booster seats are recommended for 7-year-olds.	<input type="radio"/>				
28. I believe my child is too big for a booster seat.	<input type="radio"/>				
29. Booster seats should be required for children who have outgrown their carseats until they are age 8.	<input type="radio"/>				
30. Booster seats are easy to install.	<input type="radio"/>				
31. Getting my child to ride in a booster seat at age 7 would be difficult for me.	<input type="radio"/>				
32. The cost of a booster seat is a barrier for me.	<input type="radio"/>				
33. I find booster seats to be unnecessary after age 5.	<input type="radio"/>				
34. If my child needed a booster seat, I would purchase one.	<input type="radio"/>				
35. I intend to require my child to ride in the back seat.	<input type="radio"/>				
36. The video made me want to protect my children in a crash.	<input type="radio"/>				
37. This video gave a true description of potential injury in a car crash.	<input type="radio"/>				
38. I learned a lot from this video.	<input type="radio"/>				
39. Every parent of an elementary-school-age child should see this video.	<input type="radio"/>
