Click on the title of a report to view the full citation and abstract.

**Abstracts of these reports are available now
389 unique articles this week**

Why do you use SafetyLit? Help me to justify to potential major funders that SafetyLit is needed.

Please write a brief statement (20 to 100 words) about how SafetyLit is useful to you, how SafetyLit has helped improve your work or delivery of care, etc. I have been asked to provide specific examples of how SafetyLit users apply the information they received through SafetyLit. Have you made a decision about a policy or program direction based on SafetyLit? Has SafetyLit benefited your research? Has SafetyLit benefited your clinical practice? Have you, based upon information found in SafetyLit, convinced someone to take action about a risk? Has SafetyLit helped you to write technical reports, policy statements, manuscripts, or advocacy documents? What might be the consequences to you if we could no longer provide SafetyLit?

You may also include why SafetyLit must remain free of cost. Can you or your institution find a place in your budget for a bibliographic service subscription? I think that, for most SafetyLit users, the answer to that question is "no". That is why I want to present SafetyLit as a freely available resource. Several potential funding sources have asked me to explain why, if SafetyLit is truly a valuable service, it is not a successful subscription service and a for-profit company.

Your few words could be what we need to convince funders of the value of SafetyLit. Please send your statement to me by email and also state that you give me permission to share your words with others.

Thank you.

David Lawrence
