**Click on the title of a report to view the full citation and abstract.**

**-- Abstracts of these reports are available now --**

Clicking on the Acrobat (light-blue) Bookmark symbol to the left of your pdf-reader screen will display a column of "bookmark" links that will allow you to jump to article listings under any of the SafetyLit categories.

**Want to find a journal article in a nearby library?**

SafetyLit now offers a link to a WorldCat service that allows a user to enter their location and find a list of OCLC-affiliated libraries that hold a particular journal within their collection. More than 10,000 library systems worldwide are participants.

Enter your location in the form and you will receive a list of libraries. This list may be useful to view the journal at the library or to request that your library obtain a copy of the article through inter-library loan. Simple instructions are available at:

<http://www.SafetyLit.org/locate-library.htm>

**- - SafetyLit is now Zotero-Ready - -**

Zotero [zoh-TAIR-oh] is a free, open-source, easy-to-use Firefox extension to help you collect, manage, and cite your research sources. This software, produced by the Center for History and New Media at the George Mason University is a no-cost alternative to better-known packages such as EndNote® or Reference Manager®. For more information about Zotero visit <http://www.zotero.org>.

With Zotero you may with one click download SafetyLit article records and then with another click insert the article as a reference in a MS Word document. It is no longer necessary to type your references and citations. If you are writing using, for example, APA style and want to change to another style, say, Vancouver, this can be done with another click of your mouse.
