Abstracts of these reports are available now
263 unique articles this week

Search System Improvements

The speed of the SafetyLit search system has been dramatically improved. An advanced search using multiple Boolean operators that had required 45-60 seconds now requires only about 3 seconds.

SafetyLit Archive now contains more than 250,000 articles.

Last week the contents of the SafetyLit database exceeded 250,000 articles.

New: Download citations and abstracts in RIS and BibTeX format.

Now, in addition to citations being available to Zotero; citations and abstracts may be downloaded into most any bibliographic management software.
