Special acknowledgment to IP News from WVU ICRC:

Although SafetyLit staff members and volunteers continue to closely monitor journal publishers and other sources, we find that [IP News](#) from the West Virginia University Injury Control Research Center frequently identifies safety-relevant publications before we do. Beginning in May 2013 SafetyLit and IP News established an agreement to work together to improve both services. [IP News](#) is particularly useful for recently released reports and publications from government agencies and groups such as the Insurance Institute for Highway Safety and similar NGOs -- items that are not available from SafetyLit.
